## TEST EXECUTION SUMMARY REPORT

Generated: 31/10/2025, 4:09:49 am

### TEST STATISTICS:

Total Tests Executed: 13

✓ Passed: 8

✗ Failed: 2

Success Rate: 61.5%

### PASSED TESTS (8)

- ✓ Backend API Tests Backend server is running and accessible  
Duration: 358ms
- ✓ Backend API Tests Workers API endpoint is accessible  
Duration: 167ms
- ✓ Backend API Tests Suppliers API endpoint is accessible  
Duration: 61ms
- ✓ Frontend Tests Frontend server is running and accessible  
Duration: 27ms
- ✓ Backend API Tests Backend server is running and accessible  
Duration: 794ms
- ✓ Backend API Tests Workers API endpoint is accessible  
Duration: 140ms
- ✓ Backend API Tests Suppliers API endpoint is accessible  
Duration: 67ms
- ✓ Frontend Tests Frontend server is running and accessible  
Duration: 32ms

## FAILED TESTS (2)

- ```
=====
```
1. ❌ Backend API Tests ML Finance status endpoint is accessible  
Duration: 10ms  
Error: AssertionError: expected [ 200, 500, 503 ] to include 404
  2. ❌ Backend API Tests ML Finance status endpoint is accessible  
Duration: 14ms  
Error: AssertionError: expected [ 200, 500, 503 ] to include 404
- ```
=====
```

## DETAILED RESULTS

### BACKEND API TESTS:

- ```
=====
```
- ✅ Backend API Tests Backend server is running and accessible
  - ✅ Backend API Tests Workers API endpoint is accessible
  - ✅ Backend API Tests Suppliers API endpoint is accessible
  - ✅ Frontend Tests Frontend server is running and accessible
  - ✅ Backend API Tests Backend server is running and accessible
  - ✅ Backend API Tests Workers API endpoint is accessible
  - ✅ Backend API Tests Suppliers API endpoint is accessible
  - ✅ Frontend Tests Frontend server is running and accessible
- ❌ Backend API Tests ML Finance status endpoint is accessible  
AssertionError: expected [ 200, 500, 503 ] to include 404
- ❌ Backend API Tests ML Finance status endpoint is accessible  
AssertionError: expected [ 200, 500, 503 ] to include 404

### FRONTEND UI TESTS (Selenium):

```
=====
```

No UI tests passed

## RECOMMENDATIONS

- ```
=====
```
1. Review failed tests listed above
  2. Check server logs for detailed error information
  3. Verify all services are running (Backend: port 5000, Frontend: port 3000)
  4. Ensure database connection is active
  5. Check ML service if ML Finance tests failed
- ```
=====
```
